RESPONSE TO RESTRICTION REQUIREMENT

Sir:

In response to the Office Action dated June 29, 2005, applicant provisionally elects the claims of Group I (claim nos. 1-9), with traverse. While the device of Group I and the method of Group II may be distinct for the reasons set forth by the Examiner, applicant believes that simultaneous examination will not present an undue burden. For example, the claims of Group I are drawn to a thin film transistor array panel and the claims of Group II are drawn to a method of manufacturing a thin film transistor array panel. The two Groups of claims include subject matters that can be classified commonly in class 257.
